

La locanda del postino

MADE IN ITALY

SICILIA

PROFILE

The hotel "La Locanda del Postino" is located inside the Eolian Islands' oldest crater, on the western side of the Island of Salina. Spectacular sunsets can be enjoyed from the hotel, cradled on one side by a natural mountainous amphitheatre and overlooking the sea, Filicudi and Alicudi on the other.

The hotel garden captures the authentic Eolian atmosphere with its surrounding palm trees, caper and other indigenous Mediterranean plants.

The hotel ten en-suite rooms can accommodate 2, 3 or 4 guests, depending on requirements. Each room has a mini-bar, air-conditioning, a TV and a private patio area in which to relax.

The breakfast buffet is available from 8.30 a.m. until whenever you get up! Homemade cakes and jams are a specialty. The restaurant, which serves typical Eolian dishes, is open all day to both residents and non-residents.

The hotel is located 500 mt. from the cove, where you can reach the water by steps. Here, you can see a small fishing village built on the rocks, where the Massimo Troisi film "Il Postino" starring Philip Noiret and Maria Grazia Cucinotta, was made. Boat trips around Salina and to the other volcanic islands can be arranged on request.

Mountain paths can be followed to the summit of Monte Fossa delle Felci and Monte Porri, from where you can see all the islands.

Public transport is available but private transport is recommended in order to appreciate all of the island. Cars or mopeds can be arranged if required.
